

Looking More Like a Sailing Club! 14 August 2010

On Saturday 14th August the pontoon was refloated. It now looks like a sailing club again and there is somewhere to moor your boat while buoyancy testing on Saturday 21st or 28th August!

Grateful thanks to all those who joined the working parties to get the Club ready for the Gala Day on Sunday 29th August. If you were not able to come to the working parties, I'm sure that the bosun can find a job for you to do when you come to buoyancy test your boat!
